

# OREGON AVENUE RECONSTRUCTION PROJECT

Dear District Resident,

The Oregon Avenue Reconstruction Project Phase 2B is well under way . The District Department of Transportation (DDOT) will be installing the asphalt base on Phase 2B between Horse Stable Road and Rittenhouse Street on the following dates, weather permitting:

**Tuesday and Wednesday, February 9 -10, 2021**

**The following addresses will have limited access to their driveways during the daytime hours on those dates: 5800, 5810, 5820, 5826, 5830, 5834, 5842, 5850 and 5860 Oregon Avenue NW.**

**In addition, in order to safely complete this procedure, the contractor will close the Northbound lane between Horse Stable Road and Rittenhouse Street. A detour will be placed at Northampton Street for motorists traveling northbound on Oregon Avenue, and a designated flagger will be on-site to direct traffic in and out of the park at Horse Stable Rd.**

**Please Note: You will always have access to and from your driveway permitted via steel plates. Please notify a member of the crew if you are attempting to come or leave and allow a few minutes for the plates to be setup. The access points will be restored as soon as the work is complete. Flaggers will be assigned to direct traffic safely through the construction work zone.**

It is our goal to keep you abreast of traffic modifications and milestones while providing open communication with the construction outreach team. Please feel free to visit the website at [www.oregonavenueproject.com](http://www.oregonavenueproject.com) for the most recent project updates or email us at [info@oregonavenueproject.com](mailto:info@oregonavenueproject.com).

Thank you for your patience and support as we work together to implement safer conditions for pedestrians, motorists and cyclists along the Oregon Avenue corridor.

Regards,

The Oregon Avenue Reconstruction Project Communications Team
